

DUET™

for the way you worship

SAUIDER®
— WORSHIP SEATING

DUET™

Many congregations prefer traditional seating styles for their synagogue, while maintaining the warmth that only wood can provide. With these unique demands, Sauder Manufacturing has added Duet™ to its line of seating. Our product brings together the tradition of the classic wooden frame with the comfort and accessibility of a current design.

This model is based on the elegant simplicity, quiet operation, and unique comfort of our Clarity line of auditorium seating. To meet both modern standards and historic expectations, flip-up seats are encased in the wooden framework of a traditional pew. Each seat quietly and consistently returns to its raised position, even after years of use. Our design also allows for increased spacing between rows.

With Duet, Sauder offers a wide collection of styles and preferences. Our product is available in maple, oak, or cherry wood species and all of our standard finishes. You can select from your choice of seat widths, fabric colors, ends, wooden or cushioned pew backs, and much more. The seats can also be purchased with our continuous bookrack. With our many options, you can choose sanctuary seating that corresponds with the needs of your worship facilities.

You'll also benefit from our professional project management system and no-hassle delivery and installation. From beginning to end, Duet demonstrates the craftsmanship and reliability that make Sauder Manufacturing the leader in worship furnishings.

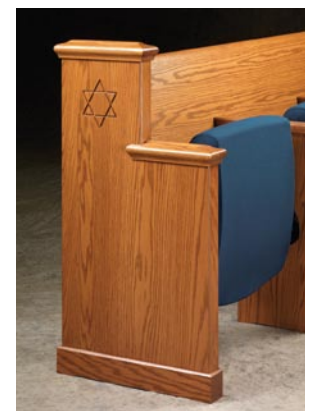

Body 301-1168, End 301-4509 with custom symbol

*At Sauder, we've been helping communities of every faith
achieve their visions of worshipful interiors for more than 70 years.*

*We've worked closely with designers, architects, committees,
and clergy, listening to their hopes, their wishes,
their dreams and their concerns.*

*And we have responded, building a legacy of which
we, as a company, are very proud.*

*Today, there are more than twenty-five thousand
congregations worshipping on Sauder seating.*

*That so many congregations have trusted us,
referred us to friends, family, and associates, and have returned
to us as customers again and again, that fact more than any other,
testifies to the value of the principles of stewardship
and service that all of us at Sauder Manufacturing
work hard to live up to every day.*
