RADIANCE™ CURVED PEWS

Inspired by Nature, Crafted with Experience.

During the last decade, many churches have designed seating centrally, around the platform. Often referred to as “Worship-in-the-Round”, congregants are seated closer to the speaker in an effort to build stronger engagement during the service. Churches who adapt the intimate layout experience a heightened sense of unity when worshipping together.

Sauder Worship Seating® introduced Radiance Curved Pews in 2013. Designed to create a warm and welcoming space, Radiance Curved Pews are available in solid wood, upholstered seat with a wood back, and upholstered seat and back models.

OUR LADY OF GUADALUPE Doral, FL

Radiance™ Curved Pews are an ideal solution for any worship space, as each pew is created specifically for your space and customized to your floor plan. Designed with concentric radii, pews radiate from a central point. The seating is a stunning feature accenting building architecture, while also serving your church.

SAINT FRANCIS OF ASSISI Triangle, VA

“The parish is thrilled with the quality of our new Sauder Worship Seating® pews. We were particularly impressed with the timeliness of the pew installation process and the Sauder team’s attention to the critical install timeline. They listened carefully to our needs, paid strict attention to our mass & services schedules and completed their work flawlessly. We highly recommend Sauder Worship Seating to anyone interested in purchasing quality church seating especially Radiance™ pews.”

- Ed Knapp | Facilities Manager

SAINT RAPHAEL Koloa, HI

The reputation of Sauder Worship Seating® as a premier supplier of worship seating has earned recognition among many Catholic dioceses, including the historic St. Raphael Church in Koloa, Hawaii. The parish transitioned from chairs to custom Radiance™ Curved Pews to enhance the use of space and architectural style of the church.

SAINT DEMETRIOS Rocky River, OH

Every detail is handcrafted to highlight the natural beauty of the wood, from the exceptional quality finish to the flowing contours and curves.

RADIANCE™ CURVED PEWS

Quality and Durability

Each solid wood support is anchored to the floor for added stability. Every back, seat and backcap is routed into the pew end, providing superior strength and a finished look.
